The flavor of the pear is much better if you will gather it just as soon as it matures. By maturity we mean when it reaches its full size and just before it ripens. Apples gathered at this stage will keep much longer than those allowed to ripen on the trees.

Several hundred loads of gravel are now piled up at the mouth of Sulphur and along the banks of Russell. What a pity for this gravel to be washed away next winter and the people continue to wade mud. The road from the town to the creek could be put in excellent condition with this gravel.

Last Sunday in the Picket Chapel neighborhood, at the home of the bride, Mr. Marvin Bingham and Miss Lee Kemp were united in the holy bonds of matrimony. The Rev. T. R. Hulse officiating. Columbia presents an inviting appearance since the public square and main streets have been swept and garnished as it were. Well, we venture the assertion that this act will meet the hearty approval of all and while our streets were in fairly good condition the disappearance of all rubbish adds much to their general appearances.

The News office is in receipt of a book case made by Mr. Jas. Morrison. It is rather large, made however, to order—the order being to large for the stair-way, hence the furniture was raised on the outside and taken through a window. It is made of oak and equal in appearance to city work and superior in strength. If you need a book-case, neat table, bedstead or in fact anything in this line, Mr. Morrison is the man who can please you.

The firm of Hagan, Rice & Murrain, of Taylor county, who are in the lumber business, will start a mill at Sparksville, in Adair county in the next few days. They have purchased three hundred and ten popular trees from Dudley Roberts, estimated to make 350,000 feet of lumber. During the sawing of timber the firm will work about twenty hands, eight at the mill and twelve in the woods. This mill will make business lively for the Sparksville country.

Last Thursday night while an electric storm was raging in the neighborhood of Cane Valley, the lightning struck a box-cottage occupied by Henry Whallen and family, knocking the boards from the building and so terribly shocking Mr. Whallen he was senseless for more than an hour. A black streak extended down Mr. Whallen's left leg, and there was a mark across his stomach. His wife and children were with him in the building, none of whom were hurt.

### PUBLIC SPEAKING.

Hon. Geo. E. Stone, of Liberty, will address the voters of Adair county in the Court-house at 1 p. m., Monday, September 23rd. Don't fail to come out and hear the political issues discussed.

Mr. Stone is an able debater, a fluent and powerful speaker. Come out and hear him tell why the Democratic ticket, both State and National should be elected.

Mr. M. Roy Yarberry, Adair and Cumberland's Representative, left Monday to attend the meeting of the Legislature. Inasmuch as he is an advocate of a change in the election law and in view of the fact that he is only a bright light in the minority of that august body, he will doubtless act with moderation and should the majority view be in accord with his, he will doubtless say and repeat the old darkey prayer: "Lord, give me a thankful heart for what I'm about to receive."

I have in the pen one black sow with hole in each ear and right ear cropped, 2 black sows and 1 barrow will weigh about 150 pounds, unmarked. These hogs were taken from the streets of Columbia and placed in the pen on the 21st of Aug. The town ordinance prohibiting hogs from running at large, also provides that they shall be penned advertised and sold after ten days, unless costs are paid by owner. Owner will call at once or hogs will be sold. Geo. Coffey, Marshal.

Prof. J. W. McGarvey, Jr., delivered an interesting lecture at the Christian church last Thursday evening, his subject being "What I Saw in the Holy Land." The lecture was illustrated with views, making it especially interesting. At intervals Master Earl and Miss Roy McGarvey favored the audience with excellent music. Persons who are not acquainted with the habits and teachings of the people in the Orient, and the many ancient and magnificent structures to be found about Jerusalem, should see and hear this illustrated lecture.

An organization of young ladies known as the Mysterious Tribe, gave a reception at Mrs. Kate Smith's beautiful residence in this city last Friday night. There were 50 or 60 present and the evening was delightfully spent. Music, sweet music was made, refreshments were served and finally a guessing contest was instituted. Prof. Payne, of Breeding, was the winner. There were three prizes offered for the most ignorant, but we refuse to mention the names of the winners. The party disbanded near the silent midnight hour, all feeling glad that the Mysterious Tribe had been brought into existence.

Dr. Gwinn Staples is bossing the jail hands and directing work on the road from town to the creek. He is doing some good and lasting work which will no doubt redound to his glory and good will among his fellow man. The road from the town limit to Russell Creek will be put in excellent condition, by Dr. Staples, for receiving a coat of gravel. When the road is graded and ditched, then the people of this town who have teams, and many in the country should volunteer and gravel the road. It would afford a nice drive to the town people and would serve the country people admirably in the winter and spring.

The Columbia State Co., is now pushing business and we trust that all of its dull days have passed. This company is worth a great deal to this town and county. Besides furnishing a fair market for staves in the rough, it provides profitable employment to a good number of men in this town at fair wages. Through the dull season it has hung on with bull-dog courage and deserves encouragement from all our people. If you need a barrel buy it from this company.

The following young people chaperoned by Mrs. L. C. Hurt, spent last Saturday afternoon at the Griffin Springs:—Misses Mattie Taylor, Mary Smith, Bertie Powell, Julia Smith, Pauline Cabell, Lena Todd, Lorena Pile, Pearl Taylor; Messrs. Jno. Parrish, Selie Young, Fred Hancock, Joe Coffey and Geo. Walford. An elegant luncheon was spread in the beautiful yard of Mr. Faulkner, which was enjoyed by all, after which, the happy party had a pleasant drive back to Columbia, feeling that they had never spent a more pleasant outing.

Mr. W. T. Williams, of Taylor county, spent last week in visiting relatives and friends in this county. Mr. Williams will be a candidate for school Superintendent of his county next year, subject to the action of the Democratic party. At present he only has but one opponent in his party. Mr. Williams is a young man well and thoroughly qualified, as we are informed, to discharge the important duties of the office to which he aspires. He is a true democrat, and an active worker, and we venture the assertion that he will be the next Superintendent of schools in Taylor county.

Last Friday afternoon closed a successful week of the institute. Nearly all the teachers of the county were in attendance, and a great many visitors. Mr. Willis is an able instructor and gave perfect satisfaction. The entertainment given on Tuesday evening was first-class, a large audience witnessing the exercises. The singing by the several young ladies was especially appreciated, and the song and "cake walk" by Lina Rosenfield and Edna Lewis brought every body to their feet. They are perfect little actresses, and you have only to see and hear them to appreciate their efforts.

A high-class entertainment was given at the court-house last Thursday evening by Prof. Francis Joseph Brown, of Bowling Green, a teacher of elocution and oratory. A large crowd was present and the speaker was given close attention from start to finish. His rendition of the "Chariot Race" was thrilling and delivered faultlessly. His selection from "Pickwick Papers" was good, and the story of the vagabond drunkard pathetic. Prof. Brown is an eloquentist whose talents are not met every day, and every one who heard him speak of his efforts in the highest praise.

Last week we briefly mentioned that Mr. M. H. Marcum, of this city, had rented the Conover Hotel and would take possession the first of November. Mr. Marcum is an experienced hotel man, having followed the business in Columbia, giving entire satisfaction. For several years he has been a traveling salesman for Swann, Abraham & Co., making many friends upon the road. He is especially popular with his drummer friends, and will naturally be given a large share of their trade. We predict that he has made no mistake in entering the hotel business. Mr. Conover, we understand, will remove to his farm, near town.

### The Trip to Sulphur Springs.

On the morning of August 13, our party consisting of twenty Columbians started for the Sulphur Springs in Cumberland county.

After a long and fatiguing journey, which we all feel fully repaid in taking, we landed all safe, if not altogether sound, at twilight of the same day.

We found the springs an ideal place for a camping party. Some of our good Burksville neighbors, to whom we are indebted for this trip, have erected some very comfortable dwellings there, whose doors we found standing open for us when we arrived.

The water is delightful, consisting of three springs; a white and red sulphur and a fresh water spring. We certainly took the advice of Isaiah in one particular—we ate, drank (water) and made merry—with no thought of the morrow, the outside world or the past. "Sufficient unto the day," was the maxim of all.

Kind Providence never smiled more benignly on an outing party. The weather was delightful, the party jolly and agreeable, our visitors all that we could desire, and our fare the very best. We gave the kitchen and dining room into the care of our most excellent cook, Aunt Zoo, while we just reveled in idleness and pleasure from our Captain Yarberry's first call of "Attention" in the morning until the last degree of the M. T.'s. was finished at night.

Messrs. Bob, Marvin and Selie Young, Alexander Allen, J. H. Turk, Jno. Parrish, Joe Sparks and Charley McGee joined our party soon after our arrival and added much to the pleasure of our stay—not only by their pleasant company but in the many nice things added to our larder, for which the party extends their thanks. Quite a number of visitors were out from Burksville as well as from various parts of the county.

We shall ever remember our visit to Cumberland county as one of the most enjoyable of our lives. But the time at last came to leave. It was with sad hearts that we turned our faces homeward, with many pleasant recollections of our sojourn there, and a hope that we may be reunited next summer, when our girls and boys may again "find the buffalo."

### Death of Bascomb Baker.

Last Thursday afternoon the people of this community were surprised to learn that Bascomb Baker had just died at his late home, Amandaville, Cumberland county. He was a young man well-known here, having resided several years in Columbia. During his stay in our midst he was a clerk in Willis Bros.' store, and was quite popular with his associates. He was afflicted with pulmonary trouble, and four months ago he visited his friends here and was apparently in good health. He was a son of Dr. T. T. Baker, a well-known Cumberland county physician.

The deceased was about twenty-four years old. The surviving parents have the profoundest sympathy of the people of this community.

### A Public Nuisance

In order to avoid a malarial epidemic, and at the same time improve the physical appearance of our community, it is directed that the Board of Town Trustees; the Custodian of all public property; the Trustees of the Common Schools; the owners of private property; and all citizens having care and possession of any property, proceed at once to gather in heaps, and burn all weeds growing on their respective premises, that the public nuisance may be at once abated. Let every one be careful to avoid the penalty attached to a failure to comply, Aug. 28, 1900.

U. L. TAYLOR, Health Officer, Adair County.

Behold how quiet and inviting is our little, but thrifty city of Columbia since no swine is seen upon her streets. How few towns whose population equals that of Columbia that prohibits swine from running at large, however Columbia seeks no model but meets and deals with every question that affects her peace and tranquility. No hogs rooth the streets of this town, none are left to pick up the watermelon rinds, nay they have been banished—the decree has been made that they shall not roam our streets and trespass upon the private premises of those who forget to shut outside gates. A violation of this decree means confinement in a hog jail and from the innocent pig to the aged sow, whose bristles stand erect, the sand-splitter and the high-bred must all go to the pen, there to remain until liberated by the rightful owner.
